## **OVERVIEW**

The Company was incorporated on March 12, 2007 by Certificate of Incorporation issued pursuant to the provisions of the Business Corporations Act of British Columbia under the name Ethos Capital Corp. The Company completed its initial public offering (IPO) on December 12, 2007 and began trading on the TSX Venture Exchange (the Exchange) on December 14, 2007 as a Capital Pool Company as defined by policy 2.4 of the Exchange under the symbol ECC.P.

The Company has not commenced commercial operations and has no assets other than its existing cash and working capital to identify and evaluate assets or businesses with a view to completing a Qualifying Transaction.

## **PROPOSED QUALIFYING TRANSACTION**

During 2008, the Company signed a Letter of Intent with Cardero Resource Corp. (Cardero) pursuant to which the Company was granted an option to earn a 70% working interest in three of Cardero's mineral prospects in Mexico. Subsequently in the same year, the Company and Cardero signed a Letter Agreement (the Amending Agreement) amending the terms of the Letter of Intent. The amended transaction is intended to constitute the Company's Qualifying Transaction such that the Company will meet Tier 2 Mining Issuer requirements of the Exchange.

Pursuant to the Letter of Intent and the Amending Agreement, the Company has an exclusive option (the Option) to earn an undivided seventy (70%) percent right, title and working interest in two of Cardero's mineral properties in Mexico, the Santa Teresa and Corrales properties (the Mineral Properties) respectively by:

- (a) paying to Cardero the sum of \$500,000, as follows:
  - (i) \$100,000 on or before the day (the Acceptance Date) which is five (5) days after the Letter of Intent and the Amending Agreement is accepted for filing by the Exchange;

- (ii) an additional \$150,000 on or before the day which is one (1) year after the Acceptance Date; and
  - (iii) an additional \$250,000 on or before the day which is two (2) years after the Acceptance Date;
- (b) delivering to Cardero 1,334,000 fully-paid and non-assessable common shares of the Company as follows:
- (i) 266,800 common shares of the Company on or before the day which is one (1) year after the Acceptance Date;
  - (ii) an additional 466,900 common shares of the Company on or before the day which is two (2) years after the Acceptance Date; and
  - (iii) an additional 600,300 common shares of the Company on or before the day which is three (3) years after the Acceptance Date;
- (c) during the currency of the Option, assuming all of the liabilities, and performing, in a timely manner, all of the obligations pursuant to each of the third-party agreements to which Cardero or its subsidiaries hold their rights in and to the Mineral Properties; and
- (d) otherwise complying with the terms and conditions of this Letter of Intent and Amending Agreement during the currency of the Option.

In consideration of Cardero entering into the Amending Agreement, the Company has agreed to issue 100,000 common shares of the Company on the Acceptance Date. In addition to the Option payments to Cardero, the Company has agreed to pay an individual arm's length finder 200,000 common shares of the Company as a finder's fee in consideration of that individual identifying and assisting with the acquisition of the Mineral Properties in the proposed Qualifying Transaction.

The Letter of Intent and the Amending Agreement between the Company and Cardero, and the payment by the Company of the above-described finder's fee are subject to applicable regulatory approvals, including the acceptance of the Exchange. The Company and Cardero have agreed to settle on the terms of a more formal definitive option agreement to replace the Letter of Intent and the Amending Agreement.

### **Management of the Company and Exchange Acceptance**

The Company does not anticipate any changes to its current roster of directors and officers as a result of the above-described option transaction and financing.

The Qualifying Transaction is an arm's length Qualifying Transaction and to the Company's understanding will not be subject to shareholder approval.

***Completion of the above-described transactions is subject to a number of conditions, including but not limited to, Exchange acceptance and requirements. There can be no assurance that the above transactions will be completed as proposed or at all or without amendment.***

#### **PROPOSED TRANSACTIONS**

#### **RISKS AND UNCERTAINTIES**

The Company was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and will not generate earnings or pay dividends until at least after completion of a Qualifying Transaction.

The directors and officers of the Company will only devote a portion of their time to the business and affairs of the Company and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time.

The Company has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Company will be able to complete a suitable Qualifying Transaction successfully or complete the option referred to under “Proposed Qualifying Transaction”.

The Qualifying Transaction will be financed partly by the issuance of additional securities of the Company and this will result in further dilution to existing shareholders. In addition, the Company will need to raise additional funds from the issuance of additional securities to fund its future working capital and exploration costs. The additional dilution may be significant and may also result in a change of control of the Company.

Please also refer to the section under risk factors in the Company’s prospectus for the IPO.

## **CRITICAL ACCOUNTING ESTIMATES**

The Company’s accounting policies are described in detail in note 2 of the annual audited financial statements for the year ended December 31, 2008. The Company considers the following policies to be most critical in understanding its financial results:

### Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets, and commitments at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates due to factors such as changes in economic conditions, regulatory matters and negotiations with other parties.

### Stock-based compensation

The Company uses the fair value method of accounting for options granted under its stock-based compensation plan. Stock options to employees are measured at the fair value of the consideration received or the fair value of the equity instruments issued whichever is more reliably measurable and are charged to operations over the vesting period. Stock options granted to consultants are valued at the time the options vest and at every reporting period for those not yet vested. The offset is credited to contributed surplus. Cash received on the exercise of stock options is recorded in share capital and the related compensation included in contributed surplus is transferred to share capital to recognize the total consideration for the shares issued.

The Company uses the Black-Scholes option pricing model to calculate the fair value of stock options granted. This model is subject to various assumptions. The assumptions the Company makes will likely change from time to time. At the time the fair value is determined; the methodology the Company uses is based on historical information, as well as anticipated future events.

## **CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION**

### Goodwill and Intangible Assets

Effective January 1, 2009, the Company adopted the new CICA Handbook Section 3064, *Goodwill and Intangible Assets*. This Section replaces CICA Handbook Section 3062, *Goodwill and Intangible Assets* and CICA Handbook Section 3450, *Research and Development Costs*, and establishes revised standards for the recognition, measurement, presentation and disclosure of goodwill and intangible assets. There is no impact on the Company’s financial statements with the adoption of this new standard.

## **FUTURE ACCOUNTING CHANGES**

### **International Financial Reporting Standards**

The CICA has announced it will transition Canadian generally accounting principles (“GAAP”) for publicly accountable entities to International Financial Reporting Standards (“IFRS”). The Company’s financial statements are to be prepared in accordance with IFRS for the fiscal year commencing January 1, 2011. The impact of the transition to IFRS on the Company’s financial statements has not been determined.

## **FINANCIAL INSTRUMENTS**

As disclosed in its audited financial statements for the year ended December 31, 2008, the Company has identified several financial instruments that it utilizes in its day-to-day operations. It is management’s opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

## **MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. Any system of internal control over financial reporting, no matter how well designed, has inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

## **CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING**

There have been no changes in the Company’s internal control over financial reporting during the three months period ended March 31, 2009 that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.
