ETHOS GOLD CORP.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2015 and 2014 (Stated in Canadian Dollars) (Unaudited)

1. NATURE OF OPERATIONS

Ethos Gold Corp. (the “Company” or “Ethos”) was incorporated on March 12, 2007 under the British Columbia Business Corporations Act. In 2009, it began trading on the TSX Venture Exchange (“TSX-V”) as a Tier 2 company under the symbol ECC. Its registered office is located at 800 – 789 West Pender Street, Vancouver, BC, V6C 1H2. The Company’s principal business activities are the identification, exploration and development of economically viable mineral properties.

Due to the significant decline in commodity values for both precious and base metals, since 2013 the Company has not undertaken any exploration activities on its mineral properties in order to preserve cash. However, the Company has been reviewing opportunities to acquire an interest in assets or a business outside of the mineral exploration sector with a view to creating shareholder value. The Company’s operations during the nine months ended September 30, 2015 were primarily directed towards the above mentioned search for an acquisition outside of the mineral resource exploration sector.

These condensed interim financial statements have been prepared on the basis that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has sufficient resources at this time to locate and explore a mineral property or properties with sufficient potential for further development. Should the Company succeed in identifying and exploring one or more mineral properties, it may need to obtain additional financing through the issuance of debt or equity. There is a risk that additional financing may not be available on a timely basis or on terms acceptable to the Company to complete the successful development of these properties.

2. BASIS OF PREPARATION

(a) Statement of compliance

These condensed interim financial statements, including the comparative statements, have been prepared in accordance with International Accounting Standards (“IAS”) 34, *Interim Financial Reporting* using the same accounting policies and methods as were used for the Company’s financial statements and the notes thereto for the year ended December 31, 2014 (“Annual Financial Statements”). These financial statements should be read in conjunction with the Annual Financial Statements.

(b) Changes in accounting standards not yet adopted

IFRS 9 *Financial Instruments* (“IFRS 9”): This standard replaces the current IAS 39 *Financial Instruments Recognition and Measurement*. The standard introduces new requirements for classifying and measuring financial assets and liabilities. The effective implementation date of IFRS 9 is January 1, 2018. The Company is currently evaluating the impact on the financial statements.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2015 and 2014 (Stated in Canadian Dollars) (Unaudited)

3. ESTIMATES

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended December 31, 2014.

4. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The Company's activities expose it to a variety of financial risks: market risk (including fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk.

The condensed interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Company's annual financial statements as at December 31, 2014.

(b) Common shares – Issued and outstanding

At September 30, 2015 and December 31, 2014, the Company had 43,458,911 common shares issued and outstanding.

(c) Share purchase options

Share purchase options are granted at an exercise price equal to the estimated fair value of the Company's common shares on the date of the grant.

On June 22, 2010, the Company implemented a new Share Option Plan ("Plan") for the benefit of directors, employees and consultants of the Company. The Plan provides that the directors of the Company may grant options to purchase common shares on terms that the directors may determine. The maximum aggregate number of common shares that may be reserved for issuance under the Plan is 10% of the issued and outstanding common shares of the Company at the time of grant. At September 30, 2015, 2,235,000 (December 31, 2014 – 3,303,570) share purchase options were outstanding.

Outstanding, end of period	2,235,000	\$0.34	3,303,570	\$0.47

The following weighted-average grant date assumptions were used in the Black-Scholes model in valuing share purchase options granted during the nine months ended September 30, 2015 to directors and officers: weighted average grant-date fair value: \$0.08 (December 31, 2014 - \$0.11); weighted average share price: \$0.15 (December 31, 2014 - \$0.19); weighted average exercise price: \$0.15 (December 31, 2014 - \$0.20); risk-free interest rate: 0.83% (December 31, 2014 - 1.46%); expected volatility: 67.18% (December 31, 2014 - 70.72%); expected years of option life: 5 (December 31, 2014 - 5); expected dividends: \$nil (December 31, 2014 - \$nil). Volatility is based on the Company's historical share price volatility.
